

INGENERIC General Terms and Conditions of Purchase (IEB)

I. Validity of the INGENERIC Conditions of Purchase

1. These Terms and Conditions ("IEB") apply to all contracts concluded by INGENERIC as purchaser or ordering party, unless otherwise agreed to in writing. Any terms and conditions of delivery of the Supplier which deviate from these IEB shall not become part of the contract, even if INGENERIC does not expressly object to them. The IEB shall also apply if INGENERIC accepts a delivery from the Supplier without reservation even though INGENERIC is aware of the Supplier's terms and conditions that are contrary to or deviate from the IEB.
2. The currently valid version of the IEB shall also apply to future business transactions with the Supplier.
3. In addition, the Incoterms 2020 shall apply to the extent that they do not contradict the IEB or any other agreements made between INGENERIC and the Supplier.
4. Any rights to which INGENERIC is entitled under the statutory provisions beyond the IEB shall remain unaffected.

II. Contract Conclusion and Amendments

1. The contract shall be concluded by INGENERIC's purchase order or call-off order unless the Supplier objects in writing or submits a counter-offer within one week of receipt of the purchase order or call-off order. The receipt of the objection or of the counter-offer by INGENERIC shall be decisive in determining its timeliness. If INGENERIC does not reject the counter-offer within two weeks of receipt, the content shall be binding providing that it does not deviate substantially from the order or the delivery call-off. Unless otherwise stated in the purchase order or the delivery call-off, substantial deviations shall be deemed to be a change in the delivery date or the delivery period by more than forty-eight hours, a change in the delivery quantity by more than five percent or a change in the price. The validity of the rejection of the counter-offer shall be determined by its postal dispatch by INGENERIC; the postmark shall be deemed to be proof thereof.
2. Subsequent amendments and supplements to a concluded contract shall require written confirmation in order to be effective; the above paragraph shall apply to this accordingly.

III. Scope and Content of the Obligation to Perform

1. The scope of the Supplier's obligation to perform shall be based on the specifications and descriptions of services provided upon conclusion of the contract or, in the absence of such specifications and descriptions, on the information provided in the Supplier's offers and brochures.
2. All deliveries shall comply with the applicable EU regulations and the latest EU standards (in the absence of which: DIN and/or VDE standards) as well as other standards and regulations customary in the industry, unless otherwise expressly agreed in writing. The Supplier is therefore obligated to comply with the requirements of the Regulation No. 1907/2006 (hereafter referred to as "REACH-VO") and the EU Directive 2011/65/EU (hereafter referred to as "RoHS-RL") in their most recently revised form at the time of the delivery, and to fulfill all of the duties which concern suppliers according to the REACH-VO and the RoHS-RL. The Supplier shall place a safety data sheet at INGENERIC's disposal according to Article 31, REACH-VO. In addition, the Supplier shall comply to its obligation to inform INGENERIC unsolicited and without delay before a delivery in accordance with Article 33 (1) of the REACH Regulation if a substance described in Articles 57 to 59 of the REACH Regulation as a "substance of very high concern" is contained in a component or the packaging of a good in a mass concentration exceeding 0.1 percent. This information is to be sent to the email account: einkauf@INGENERIC.com. The Supplier guarantees that all of the products comply with the requirements of the RoHS-RL and will provide INGENERIC with a respective written confirmation of the RoHS conformity.
3. INGENERIC shall accept only the quantities or numbers ordered. Excess or short deliveries are only permissible after prior agreement with INGENERIC. If partial quantities have been agreed upon, the Supplier shall be obligated to inform INGENERIC of the remaining quantity upon each partial delivery.
4. The Supplier is obliged to pack, label and send the goods in compliance with the relevant regulations of the country of origin, the transit country and the country of destination.
5. The Supplier shall be responsible for the proper disposal of the goods at its own expense after termination of use. The disposal shall comply with the statutory regulations.

IV. Modification of Performance

1. If, during the execution of the contract, it becomes apparent that deviations from the original agreed specifications are necessary or advisable, the Supplier is to inform

INGENERIC of this immediately. INGENERIC shall then inform in written form as to whether changes can be made and, if necessary, which changes in relation to the original contract are to be made by the Supplier. If the costs incurred by the Supplier for the fulfillment of the agreement are changed because of this, both INGENERIC and the Supplier are entitled to request a respective adjustment of the payment to be paid to the Supplier.

2. INGENERIC can require changes of the services provided, even after the concluding of the contract insofar as this is reasonable for the Supplier. With this contractual change, the effects, especially in terms of increased or reduced costs and delivery dates, are to be taken into consideration by both contractual partners.

V. Delivery Time

1. The agreed dates and deadlines are binding. The delivery periods shall commence with the order date. The date of receipt of the goods by INGENERIC or by the recipient designated by INGENERIC shall be decisive in determining compliance with the delivery date or delivery period. If delivery "free delivery" (DAP according to Incoterms 2020) has not been agreed to and INGENERIC has agreed to take over the transport of the goods, the Supplier shall make the goods available in due time, taking into account the time for loading and shipment to be agreed with the carrier. In other cases, the supplier shall be liable for delays in delivery caused by the forwarder, in accordance with section V.4.
2. If the Supplier foresees circumstances which may prevent him from delivering on time or in the agreed quality, the Supplier shall notify INGENERIC immediately, stating the reasons and the expected duration of the delay.
3. Force majeure, labor disputes with the exception of illegal lockouts, operational disruptions for which INGENERIC is not responsible, riots, official measures and other unavoidable events affecting INGENERIC shall entitle INGENERIC - without prejudice to its other rights - to withdraw from the contract in whole or in part, provided that they are not of insignificant duration or result in only an insignificant reduction in INGENERIC's requirements.
4. INGENERIC is entitled to the legal demands in the case of a delay in delivery.
5. Independent of this, INGENERIC is entitled to charge a contractual penalty of 0.5% per commenced week, the penalty having however a maximum of 5% of the total contract value of the delivery. INGENERIC expressly reserves the right to claim further damages. If INGENERIC does not expressly reserve the right to claim the contractual penalty upon acceptance of the delayed performance, the contractual penalty incurred may be claimed within a preclusive period of ten working days after acceptance.

VI. Transfer of Risk, Transfer of Ownership, Documents

1. The risk shall pass to INGENERIC upon delivery of the goods to INGENERIC or to the recipient designated by INGENERIC. If the Supplier is obligated to install or assemble the goods at INGENERIC's premises, the risk shall not pass to INGENERIC until the goods are put into operation.
2. The ownership of a good is transferred to INGENERIC according to the agreed Incoterm, and at the latest upon delivery at the agreed delivery address.
3. A delivery bill shall be enclosed with each delivery. Invoices shall be sent to INGENERIC at the same time as the goods are dispatched, quoting the order number. In order to avoid delays in processing by INGENERIC, copy of invoices shall not only be enclosed with the delivery of goods, but shall be sent by separate Email einkauf@ingeneric.com; otherwise, Section VII. 3 shall apply accordingly.

VII. Prices and Payment

1. The price stated in the order shall be binding. Unless otherwise agreed in writing, the price shall include, in particular, the costs of packaging, shipping equipment and transport to the delivery address specified by INGENERIC, as well as customs duties and other public charges.
2. The statutory value added tax is not included in the price.
3. In the event that invoices of the Supplier do not indicate the INGENERIC department placing the order and the date of the order or the INGENERIC order number communicated to the Supplier, INGENERIC shall be in default at the earliest sixty days after receipt of the consideration.
4. In the event of non-conforming, in particular defective, delivery, INGENERIC shall be entitled to withhold payment until proper performance without loss of rebates, discounts or similar payment benefits.
5. Payments shall be made net within 60 days of receipt of the contractual performance and receipt of the property issued invoice. All payments are subject to a later, detailed

INGENERIC General Terms and Conditions of Purchase (IEB)

invoice verification in case subsequent objections arise. In the case of delayed payment, the Supplier can demand default interest at a rate of 5 % p.a. unless INGENERIC proves a lesser damage. The Supplier shall be entitled to withdraw from the contract after the fruitless expiration of a reasonable grace period with a threat of rejection, which the Supplier set INGENERIC after the occurrence of the default in payment.

6. Payments shall be made only to the Supplier. Counterclaims of the Supplier shall entitle the Supplier to a set-off only if they have been legally established or are undisputed. The Supplier may only assert a right of retention if his counterclaim is based on the same contractual relationship.

VIII. Claims for Defects and Recourse

1. The Supplier shall assume liability that the goods comply with the latest state of the art, the relevant legal provisions and the regulations and guidelines of authorities, trade associations and professional associations. If the subject matter of the contract does not meet these requirements, the Supplier shall notify INGENERIC in each individual case prior to commencement of delivery to INGENERIC, stating the reasons. In this case, INGENERIC shall be entitled to reject the delivery even after receipt within a period of ten working days from the Supplier's notification and to assert the statutory claims for defects.
2. The Supplier ensures the traceability of the product it supplies. In the case of an ascertained error, traceability to the rejected delivery must be possible to be able to determine the status of timing limitation of the warranty and to identify the total quantity of products concerned. If traceability is not possible in a warranty and/or product liability case, the Supplier is to compensate any disadvantages for INGENERIC which may result. If the status of timing limitation of the warranty of a defective product can not be determined due to a lack of traceability, the Supplier shall be denied the plea of the statute of timing limitation of the warranty unless it can prove with certainty that the timing limitation of the warranty has expired.
3. If the Supplier has reservations about the type of execution requested by INGENERIC, the Supplier shall notify INGENERIC thereof in writing without delay.
4. Acceptance of the goods shall be subject to inspection, in particular for freedom from defects and completeness. The inspection shall be made on the basis of the delivery bill and shall be limited to the determination of obvious defects. INGENERIC shall inspect all deliveries as soon as this is feasible in the ordinary course of business and shall notify the Supplier in writing of any defects discovered in the course of such inspection without undue delay, but no later than within ten working days of delivery to the agreed delivery address; the timely dispatch of the notice of defect shall be decisive in determining compliance with the time limit. Defects which become apparent later shall be reported to the Supplier in writing without undue delay, at the latest, however, within 10 working days of discovery. In this respect the Supplier waives the right to object on the grounds of a late claim regarding a defect. In the case of shipments of goods consisting of a large number of identical goods, INGENERIC is only obligated to inspect 3% of the delivered goods for defects. If the goods become unsaleable as a result of the inspection, a random sample of 0.5% of the delivered items shall be sufficient. If individual samples of a consignment of goods are defective, INGENERIC may, at its own discretion, demand that the defective items be removed by the Supplier or assert claims for defects in respect of the entire consignment of goods. If, as a result of defects in the goods, it becomes necessary to inspect the goods beyond the usual scope of the incoming inspection, the Supplier shall bear the costs of such inspection. The receipt of the goods as well as the processing, payment and reordering of goods which have not yet been identified as defective and for which a complaint has not been made shall not constitute approval of the delivery or a waiver of claims for defects by INGENERIC.
5. If the Supplier fails to remedy the defect without delay after being requested to do so by INGENERIC, INGENERIC shall be entitled in urgent cases, in particular to avert acute hazards or to avoid major damage, to remedy the defect itself or have it remedied by third parties at the Supplier's expense at INGENERIC's usual rates of remuneration. Further claims of INGENERIC shall remain unaffected.
6. The claims to which INGENERIC is entitled in the event of defects shall become time-barred 24 months after delivery of the goods to INGENERIC, unless a longer limitation period exists by law. If the Supplier fulfills its obligation of subsequent performance by installing or supplying spare parts, the limitation period shall begin anew for these parts.
7. The Supplier releases INGENERIC from all claims that third parties would assert against INGENERIC due to defects or faults in the goods.

8. The limitation period for claims shall be suspended as long as the goods are being inspected for defects or are being repaired by the Supplier or its agents.
9. For parts of the delivery which have been serviced or repaired within the limitation period, the limitation period shall recommence at the time when the Supplier has fully satisfied INGENERIC's claims for subsequent performance.
10. The Supplier shall be obligated to reimburse INGENERIC for the expenses incurred due to the defects, in particular transport, travel, labor and material costs and, if INGENERIC has installed the defective goods in another item or attached them to another item, to reimburse INGENERIC for the necessary expenses for the removal of the defective goods and the installation or attachment of the repaired or delivered goods which are free of defects.
11. The supplier is furthermore obliged to compensate for any further damage. If and to the extent that the Supplier can prove that it is not responsible for the defect and that it is not obligated to pay damages regardless of fault on the basis of a guarantee, it shall be liable for damages only to the extent to which it can take recourse against its own suppliers. It is obligated to ensure that a sufficient scope of warranty rights against its suppliers exists for such a case.
12. If claims are asserted against INGENERIC by third parties, e.g. by its own customers, due to defects in the goods purchased from the Supplier, INGENERIC shall be entitled to recourse against the Supplier; the preceding paragraphs shall apply to this accordingly. If defects in the goods purchased from the Supplier only become apparent at the customer's premises, the rebuttable presumption that the defects were already present at the time of the transfer of risk from the Supplier to INGENERIC shall apply.

IX. Liability, in particular Product Liability

1. The Supplier's liability shall be governed by the statutory provisions, unless otherwise provided for in these IEB.
2. If a claim is made against INGENERIC on the basis of product liability, the Supplier shall be obligated to indemnify INGENERIC upon first request against all such claims if and to the extent that the damage was caused by a defect in the contractual goods delivered by the Supplier. In such cases, the Supplier shall also indemnify INGENERIC against all costs incurred in this connection, in particular expenses for required recall actions (including recall actions in accordance with product safety regulations) and legal costs. In cases of liability based on fault, the Supplier shall not be subject to such an obligation if it can prove that it is not at fault. In all other respects, the statutory provisions shall apply.
3. At the beginning of the contract and upon request at any time, the Supplier shall provide INGENERIC with evidence of product liability and recall insurance with coverage of at least € 5.000.000.00 per case of liability and shall maintain the insurance coverage for a period of ten years after INGENERIC has placed the processed delivery items on the market, even after complete fulfillment of the mutual contractual obligations. The Supplier hereby assigns to INGENERIC the claims arising from the product liability insurance, including all ancillary rights. INGENERIC hereby accepts such assignment. If an assignment should not be permissible according to the the insurance contract, the Supplier hereby irrevocably instructs the insurance company to make any payments only to INGENERIC. Any further claims of INGENERIC shall remain unaffected.
4. Unless otherwise agreed, the Supplier shall be obligated to mark its delivery items in such a way that they are permanently recognizable as its products.

X. Intellectual Property Rights

1. The Supplier shall be liable for ensuring that neither the goods delivered by it nor their further delivery, processing or use by INGENERIC infringe the property rights of third parties, in particular utility models, patents or licenses.
2. The Supplier shall indemnify INGENERIC and INGENERIC's customers against claims by third parties arising from any infringements of industrial property rights and shall bear all costs incurred by INGENERIC in this connection.
3. In the event of conflicting property rights of third parties, the Supplier shall, at its own expense, obtain the consent or authorization, which shall also be effective for INGENERIC, for further delivery, processing and use from the entitled party.

XI. Provisions, Tools

1. INGENERIC shall retain title to all parts provided to the Supplier. Processing or transformation on the Supplier's premises shall be carried out on behalf of INGENERIC. If the goods subject to retention of title are processed with other items not belonging to INGENERIC, INGENERIC shall acquire co-ownership of the new item in proportion to the value of the goods subject to retention of title to the other processed items at the

INGENERIC General Terms and Conditions of Purchase (IEB)

time of processing. The same shall apply if the items are combined or mixed in such a way that INGENERIC loses ownership. The Supplier shall store the new items free of charge for INGENERIC.

2. The Supplier shall inspect the goods provided to ensure that they are free of defects. If a part provided by INGENERIC is culpably damaged or destroyed within the Supplier's area of responsibility, the Supplier's liability shall also extend to the repair or replacement of the part provided.
3. INGENERIC shall retain title to tools paid for or provided by INGENERIC. The Supplier shall use the tools exclusively for the manufacture of the goods ordered by INGENERIC.

XII. Non-disclosure

1. The contractual partners are obligated to treat all information involved in the cooperation as strictly confidential, inasmuch as it is not in the public domain, legally obtained from third parties or independently developed by third parties, and to use it exclusively for the achieving of the agreement purposes. Protected information includes in particular technical data, purchasing volumes, prices and information involving products and product developments, current or future development plans, and all of the company data of the other contractual partner.
2. Above and beyond this, the Supplier is obligated to handle all received images, drawings, calculations and other documents with strict confidentiality and to show them to third parties only with the prior written consent of INGENERIC providing the information contained therein is not in the public domain.
3. If necessary the Supplier is to obligate sub-suppliers accordingly.
4. Upon request of INGENERIC which can be expressed at any time, at the termination of the agreement at the latest, all of the information originating from INGENERIC (where applicable including copies or records) and items provided on loan will be immediately and completely returned to INGENERIC unless these are still required by the Supplier for the purpose of meeting its contractual obligations. INGENERIC reserves all the rights to such confidential information, including copyrights, industrial property rights, patents, utility models, etc.
5. Products manufactured according to drafts, documents, models etc. provided by INGENERIC or similar or according to specifications marked as being confidential may be used by the Supplier solely for the purposes stipulated in the agreement; in particular, such products may not be offered to or delivered to third parties.

XIII. Data Protection

1. In the course of contract initiation and contract performance, the processing of contact and interaction data relating to the Supplier's respective contact persons is required. INGENERIC processes this personal data on the basis of a legitimate interest to ensure the traceability of the business relationship and to support the communication during the execution of the contractual relationship.
2. If the contractual service concerns several or all companies of the INGENERIC Group, the information shall also be passed on to these companies. This may also include companies of the INGENERIC Group outside Europe. An adequate level of data protection in compliance with Art. 44 ff GDPR (General Data Protection Regulation) is ensured within the INGENERIC Group.
3. For the initiation and processing of contracts and subsequent deliveries, INGENERIC shall transmit the contact data of its own contact persons to the Supplier in order to enable orderly communication. The Supplier may only use this data for the execution of the respective contractual relationship with INGENERIC.

XIV. The INGENERIC Code of Conduct for Suppliers

The currently valid version of the *INGENERIC Code of Conduct for Suppliers* shall become an integral part of the contract. The Supplier undertakes to comply with it. The *INGENERIC Code of Conduct for Suppliers* is available at www.ingeneric.com/general-terms-and-conditions/.

XV. Final provisions

1. The Supplier may not transfer the order or significant parts thereof to third parties without the prior written consent of INGENERIC.
2. As soon as the Supplier suspends payments INGENERIC shall be entitled to withdraw from the contract in whole or in part.
3. The law of the country in which the INGENERIC company placing the order is located applies for the contractual relations and this to the exclusion of the conflict of laws provision and the UN agreement on purchasing rights. Should individual parts of these Terms and Conditions of Purchase be legally invalid, the validity of the remaining provisions shall not be affected thereby.

4. Place of jurisdiction shall be the place of the registered office of the ordering INGENERIC company. INGENERIC reserves the right to file a complaint at any other place of jurisdiction.
